

Academic Year 2018
Graduate School of Medicine, The University of Tokyo
Doctorate Program of Medicine
Faculty List

As of 2017 April

○ Major fields of study and the faculty

- (1) Applicants will be instructed by a faculty member (a professor or an associate professor) of the major to which they applied.
- (2) Applicants must contact that faculty member before applying.
- (3) The faculty and research areas of each major field of study are shown below. Faculty members due to retire at the end of this fiscal year may not be available to teach.
- (4) Abbreviations for departments are shown below.

ED: Endowed Department, IMSUT: The Institute of Medical Science, CDBIM: Center for Disease Biology and Integrative Medicine, IRCME: International Research Center for Medical Education

International Health

Major Field of Study	Faculty		Research Fields	Affiliation (Department)
Global Health Policy	Professor	Kenji Shibuya	Global health policy, population health, monitoring and evaluation, health outcomes, Global Burden of Disease, health care system performance, intervention coverage, health and foreign policy	International Social Medicine]
	Associate Professor	Stuart John Gilmour	Statistics, epidemiology, health inequality, burden of disease, aging and non-communicable diseases, statistical methods in health services research	International Social Medicine
Community and Global Health	Professor	Masamine Jimba	Primary healthcare, health promotion, health and human rights, infectious disease control (HIV infection /AIDS, tuberculosis, malaria, NTDs, etc.), school health, nutrition, maternal, newborn, and child health, community empowerment	International Social Medicine
Human Genetics	Associate Professor	Akihiko Mabuchi	Human genetics, genetics of bone system diseases, linkage analyses/association analyses of bone and joint diseases	International Biomedical Science
Developmental Medical Sciences	Professor	Masashi Mizuguchi	Developmental neurology, neuropathology: brain malformation, neurocutaneous syndrome, mental retardation caused by childhood encephalopathy such as acute encephalopathy, elucidation of the pathology of developmental disorders and development of preventive and therapeutic measures	International Biomedical Science
	Associate Professor	Teruyuki Tanaka	Molecular mechanisms underlying brain formation (neuron migration, neural network formation), molecular mechanisms underlying developmental disorders	International Biomedical Science
Human Ecology	Associate Professor	Masahiro Umezaki	Elucidation of adaptive systems of human populations, anthropology, demographics, dietetics, GIS	International Biomedical Science
Biomedical Chemistry	Professor	Tomoyoshi Nozaki	Analysis and application of RNA and RNA-binding proteins, analysis and application of extremophiles	International Biomedical Sciences
	Associate Professor	Yoh-ichi Watanabe	Biochemistry, molecular biology, molecular parasitology: metabolic control mechanisms, parasitic phenomena, analysis of infection and adaptation, design and development of antiinfective drugs, analysis and application of RNA and RNA-binding proteins, analysis and application of extremophiles	International Biomedical Sciences
International Epidemiology	Lecturer	Joseph Green	Health-related quality of life, cross-cultural and international issues related to measuring and interpreting health-related quality of life, analysis of diagnostic and prognostic tests for epidemiologic applications	Office of International Academic Affairs
Tropical				

Medicine				
International Environmental Medicine				
International Cooperation for Medical Education	Lecturer	Hiroataka Onishi	Medical education, Health professional education, Learner assessment, Programme evaluation, Clinical education, Clinical reasoning, International Cooperation in Health Professional Education	IRCME – International Cooperation for Medical Education

**Notice Regarding Foreign Language (English) Examinations for Entrance
to the Doctoral Program in International Health**

Foreign language (English) written examinations is not administered by the University of Tokyo to applicants for the Doctoral Program in International Health, Graduate School of Medicine, the University of Tokyo. In lieu of those examinations, candidates are required to submit official reports of their TOEFL or IELTS scores.

1. TOEFL score

Applicants to the Doctoral Program in International Health should carefully read the instructions printed below, and should keep them in mind when submitting official reports of TOEFL scores. Applicants must submit both a **(1) Copy of the “Test Taker Score Report (Examinee Score Report)”** forwarded to the examinee by the ETS (Educational Testing Service), and an **(2) “Official Score Report”** forwarded directly by the ETS to the Graduate School of Medicine.

1	Acceptable TOEFL Score	An acceptable official TOEFL score is an official score on the TOEFL-iBT. However, the TOEFL-PBT is acceptable if the test is administered during the time period indicated below.
2	Period of Validity	A TOEFL score will be valid only if the test was administered after the below date; 【Enrollment for September, 2017】 June 1, 2015 【Enrollment for April, 2018】 January 1, 2016.
3	Submission Methods (1) “Test Taker Score Report(Examinee Score Report)”	Together with the other application documents, submit a copy of the “Test Taker Score Report (Examinee Score Report)” for the TOEFL-PBT, or the TOEFL-iBT that was forwarded to the examinee by the ETS. ※Application Period : 【Enrollment for September, 2017】 May 23 (Tue) – May 31 (Wed), 2017 【Enrollment for April, 2018】 January 4 (Thu) – 10 (Wed), 2018
4	Submission Methods (2) “Official Score Report”	Please make a request to the ETS to forward an “Official Score Report” to “the University of Tokyo Faculty Medicine”: DI (Designated Institution) Code “8426” no later than the following date; 【Enrollment for September, 2017】 no later than June 2 (Fri), 2017 【Enrollment for April, 2018】 no later than January 12 (Fri), 2018 ※ When making the request, do not use “University of Tokyo” or another DI code for the other graduate schools within the University of Tokyo. The records will not arrive at the Graduate School of Medicine unless the DI Code is 8426. ※ It may take a considerable number of days from the time of the request for the “Official Score Report” forwarded by the ETS to the Graduate School of Medicine. Thus, please make the request to the ETS at least six weeks before the deadline. ※ For details of methods for requesting scores, please refer to the TOEFL website < http://www.cieej.or.jp/toefl/ >.
5	Cautions	Please note that in the situations described below, reports of TOEFL scores will not be accepted. In those situations, it will be assumed that the applicant has chosen not to take the foreign language (English) examination. (1) The “Official Score Report” does not arrive from the ETS by the designated deadline. (2) The scores and the dates of the examination on the copy of the “Examinee Score Report” are not identical with those on the “Official Score Report”. (3) The official score is not from a test administered during the time period prescribed in #2 above (Period of Validity). (4) Scores are submitted by methods other than those described in #1 and #2 above, or scores are submitted by illicit means.

2. IELTS score

Applicants to the Doctoral Program in International Health should carefully read the instructions printed below, and should keep them in mind when submitting official Test Report Form of IELTS scores. Applicants must submit both a **(1) Copy of the “Test Report Form”** forwarded to the examinee by the IELTS office, and an **(2) Original “Test Report Form”** forwarded directly by the IELTS to the Graduate School of Medicine.

1	Acceptable IELTS Score	An acceptable score is a Test Report Form on the IELTS (Academic Module) only. Test Report Form of IELTS (General Training Module) is not acceptable.
2	Period of Validity	A IELTS score will be valid only if the test was administered after the below date; 【Enrollment for September, 2017】 June 1, 2015 【Enrollment for April, 2018】 January 1, 2016.
3	Submission Methods (1) Copy of “Test Report Form”	Together with the other application documents, submit a copy of the “Test Report Form” for the IELTS (Academic Module) that was forwarded to the examinee by the IELTS. ※Application Period : 【Enrollment for September, 2017】 May 23 (Tue) – May 31 (Wed), 2017 【Enrollment for April, 2018】 January 4 (Thu) – 10 (Wed), 2018 Applications will be valid if they are postmarked no later than the above date.
4	Submission Methods (2) Original “Test Report Form”	Please make a request to the IELTS office to forward an “Test Report Form” to the following address no later than the date mentioned below; Graduate Student Affairs Section, Graduate School of Medicine The University of Tokyo 7-3-1 Hongo, Bunkyo-ku, Tokyo 113-0033, Japan 【Enrollment for September, 2017】 no later than June 2 (Fri), 2017 【Enrollment for April, 2018】 no later than January 12 (Fri), 2018 ※ It may take a considerable number of days from the time of the request for the “Test Report Form” forwarded by the IELTS to the Graduate School of Medicine. Thus, please make the request to the IELTS office as early as possible. ※ For details of methods for requesting Test Report Form, please refer to the IELTS website < http://www.eiken.or.jp/ielts/ > etc.
5	Cautions	Please note that in the situations described below, reports of IELTS scores will not be accepted. In those situations, it will be assumed that the applicant has chosen not to take the foreign language (English) examination. (1) The “Test Report Form” does not arrive from the IELTS office by the designated deadline. (2) The scores and the dates of the examination on the copy of the “Test Report Form” are not identical with those on the original “Test Report Form”. (3) The “Test Report Form” is not from a test administered during the time period prescribed in #2 above (Period of Validity). (4) Scores are submitted by methods other than those described in #1 and #2 above, or scores are submitted by illicit means.
