

2027 Application Guide Professional Degree Program School of Public Health (Professional Graduate School) (1 year & 2 year courses) Graduate School of Medicine, the University of Tokyo

This application guide may change. The University of Tokyo website (<https://www.m.u-tokyo.ac.jp/english/daigakuin/apply/appguidemain.html>) will continuously announce if there is any change, so please check the newest information constantly.

Education & research aims

The aims of the Graduate School of Medicine are to promote advanced research that will contribute to breakthroughs in our understanding of the mechanisms of life, conquest of diseases, and improvements in health, as well as to produce international leaders in various medical fields who possess outstanding scholastic competence and a high level of creative research ability.

Admission Policy

The Graduate School of Medicine is looking for the following traits in prospective students:

- Individuals with a fundamental knowledge of medicine who are capable of engaging in creative research directed towards achieving breakthroughs in our understanding of life, overcoming diseases, promoting recovery, and improving health.
- Individuals capable of pioneering the future of medicine using clear, logical analytical skills and an ability to think outside the box.
- Individuals with the potential to become international leaders in their respective fields of medicine based on advanced knowledge and research skills acquired at the Graduate School of Medicine.

The Professional Degree Program at the School of Public Health (professional graduate school) aims to produce highly-advanced professionals capable of performing leadership roles in the field of public health in order to maintain, promote and restore health as well as enhancing the quality of life of a broad range of people including patients, local residents, and the nation .

The School of Public Health is a professional graduate school which aims to develop highly-advanced public health professionals capable of meeting the challenges described above, in addition to providing refresher education. The School therefore offers a standard two year course targeting regular new faculty graduates, as well as a one year course for working students with a certain degree of experience. The requirements for working students emphasize both practical experience and the length of this experience in the healthcare field. For details, refer to the eligibility criteria listed below, and the attached 'Entrance Examination Guideline'.

Upon successfully completing either of these courses, students will receive a Master of Public Health Degree.

1. Eligibility criteria

Prospective students must satisfy the following eligibility criteria and, in the case of the one year course, must possess separately-specified practical experience in the healthcare field (Note 1).

- (1) Persons who have graduated or are expected to graduate from a Japanese university by 31 March 2027. (Note 2)
- (2) Persons who have completed, or are expected to complete sixteen years of school education abroad by 31 March 2027. (Note 3)
- (3) Persons who have been conferred a degree equivalent to that of a bachelor's degree or are expected to be conferred on or before March 31, 2027 from a foreign university or other foreign institution (limited to those whose comprehensive status of education and research activities have been assessed by the government of the said foreign country or a related organization), having completed a program with a completion period of 3 years or more. (Note 3)
- (4) Persons who are designated by the Minister of Education, Culture, Sports, Science and Technology or persons who have graduated or are expected to graduate by March 31, 2027 from an educational institution designated by the Minister. (Note 4)
- (5) Persons who have been conferred a bachelor's degree or are expected to have conferred on or before March 31, 2027 by the National Institution for Academic Degrees and Quality Enhancement of Higher Education (NIAD).
- (6) Persons who are 22 years or older on March 31, 2027, whom this graduate school has recognized through individual screening of entrance qualifications, as having abilities that are at least equivalent to those who have graduated from a Japanese university. (Note 2) (Note 5)

(Note 1)

As for eligibility criteria, required practical experience may vary according to the applicant's academic history including employment requirements. Refer to the School of Public Health's 'Entrance Examination Guideline' for details.

(Note 2)

Japanese universities mentioned in Eligibilities (1) and (6) above are universities within the boundaries of Japan and as prescribed in Article 83 of the School Education Law.

(Note 3)

Eligibilities (2) and (3) above includes the case of having completed a correspondence program provided by a foreign school of said country while residing in Japan.

(Note 4)

Those as mentioned in Eligibility (4) above referred to any who have graduated from the following schools or educational institutions.

- The undergraduate program of a foreign school's Japan branch as designated by the Minister of Education, Culture, Sports, Science and Technology
- Specialized training college designated by the Minister of Education, Culture, Sports, Science and Technology (limited to programs where the program duration is at least 4 years and which satisfies standards determined by the Minister)
- Universities under the old university ordinances, or higher educational institutions (daigakko) under the national/provincial/independent administrative agency ordinances

(Note 5)

- 1) Those mentioned in Eligibility (6) above refers to those who do not fall into any of the Eligibilities (1) through (5) above but have graduated from an educational institution equivalent to a 4-year university, and whom this graduate school has recognized, through individual screening of entrance qualifications, as having abilities that are at least equivalent to those who have graduated from a Japanese university.
- 2) Those who wish to apply based on Eligibility (6) above must submit all the documents specified by the administrative department of this graduate school by Friday, 5 June, 2026 as the eligibility for application is confirmed individually in advance by document screening. Please inquire the administrative department of the graduate school in advance about the eligibility for application and the documents to be submitted. Eligibility review result will be notified by Email around Friday, 12 June, 2026.

- 3) Those who are recognized as having abilities that are at least equivalent to those who have graduated from a Japanese university through screening of entrance qualification will be permitted to apply and take the entrance examination.
